### **EXAMINER'S COMMENT**

1. This action is responsive to communications: The Decision by the Board of Patent Appeals and Interferences mailed 04/19/10.
2. Claims 1-11 and 13 have been canceled by the Examiner, which is discussed below in the Examiner's Amendment Section.
3. Claim 12 has been amended by the Examiner, which is discussed below in the Examiner's Amendment Section.
4. The Examiner notes that full faith and credit had been given to the prior Examiner's search/analysis as well as to the review/decision rendered by the BPAI (MPEP 1214.04).
5. The Examiner further notes that the machine readable storage, storing a computer program as recited in claim 12, could only constitute a statutory hardware medium in view of Applicant's specification (Page 11, Line 11-Page 12, Line 10) and what was customarily known to one of ordinary skill in the art at the time of the invention.
6. Claim 12 is now allowed as necessitated by the Examiner's Amendment.

### **EXAMINER'S AMENDMENT**

7. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The following is citation for MPEP 1214.06 which forms the basis for the following Examiner's Amendments in regard to the decision rendered by the BPAI:

“The proceedings in an application or ex parte reexamination proceeding are terminated as of the date of the expiration of the time for filing court action. The application is no longer considered as pending. It is to be stamped abandoned and sent to abandoned files. In an ex parte reexamination proceeding, a reexamination certificate should be issued under 37 CFR 1.570.

Claims indicated as allowable prior to appeal except for their dependency from rejected claims will be treated as if they were rejected. The following examples illustrate the appropriate approach to be taken by the examiner in various situations:”

*“If the Board or court affirms a rejection against an independent claim and reverses all rejections against a claim dependent thereon, after expiration of the period for further appeal, >the examiner< should proceed in one of two ways:*

*Convert the dependent claim into independent form by examiner’s amendment, cancel all claims in which the rejection was affirmed, and issue the application”* (emphasis added)

The Application has been amended as follows:

Claims 1-11 (Canceled)

Claim 12 (Currently Amended) A machine readable storage having stored thereon a computer program for autonomically configuring a user interface widget, the computer

Art Unit: 2178

program comprising a routine set of instructions for causing the machine to perform the steps of:

evaluating business rules for configuring the user interface widget according to context information for the user interface widget; and,

configuring the user interface widget with options permitted by said evaluation. The machine-readable storage of claim 10, wherein said configuring step comprises the step of filtering at least one option from being presented to an end user through said user interface widget.

Claim 13 (Canceled)
